

# Hales Corners Fire Department

2007

Annual

Report

Honorable Village President  
Board of Trustees  
Members of the Police and Fire Commission  
Citizens of Hales Corners

It is my pleasure to present the 2007 Hales Corners Fire Department Annual Report. Once again, your fire department has made tremendous strides in the areas of emergency response, training, disaster preparedness, fire and life safety. As you will see in this document, the men and women of the Hales Corners Fire Department have one goal in mind, which is providing you the best levels of customer service possible.

The Hales Corners Fire Department set an emergency response achievement. The department responded to 887 emergencies during the 2007 calendar year. This is an increase of 123 emergency responses, which represents a sixteen (16%) increase in emergency responses from the previous year. The following pages will categorize these responses.

Fire department committees are established for the benefit and safety of department personnel. The committees include EMS, training, sunshine, safety and health, apparatus and equipment, uniform and clothing, and public relations. Personnel have dedicated and volunteered a significant amount of time for the improvement of the department and safety of personnel.

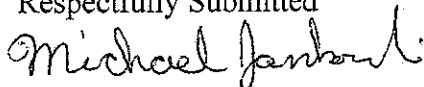

The fire department began the transition to serve as the official first responder for the Village. Traditionally the Hales Corners Police Department had been responsible for this task. As new State requirements were set forth for education and licensing of the first responders; it was fiscally responsible for the fire department to assume these duties. Necessary equipment, training and State plan are complete for the fire department to begin first responder duties in 2008.

The fire department transition from VHF to 800 MHz radio frequency is complete. Communications are standard in Milwaukee County and we are able to communicate with all Mutual Aid Box Alarm System (MABAS) divisions. Communications are improved with incoming paramedic units that have jurisdiction in Hales Corners.

I wish to thank the men and women of this department who continuously provide an important and necessary service to this Village. I can only hope this community appreciates and values their dedication and hard work as much as I do.

We appreciate the support we have received from the community, Police and Fire Commission, and our elected officials. We work hard every day to provide the best service possible in the most cost effective manner.

Respectfully Submitted

Michael A. Jankowski  
Fire Chief

## **Fire Inspection and Code Enforcement**

The Fire Inspection Bureau is tasked with visiting each and every public building and apartment complex twice per year to ensure that the employees, employers, and the general public that utilize these areas are safe from fire. The fire inspector surveys each building for fire code compliance and any unsafe acts that could lead to a fire. Each building regardless of its type is inspected to see that:

- ✓ Fire extinguishers are mounted properly, easily accessible, in operating condition, and are inspected annually
- ✓ Exit lights operate properly
- ✓ Exit pathways are clear and unobstructed
- ✓ Exit doors open and are not blocked
- ✓ Surge strips and extension cords are used properly
- ✓ Fire alarms are operating properly
- ✓ Smoke detectors are present and working
- ✓ Sprinkler systems are operating properly and inspected annually
- ✓ Proper storage of gasoline and other flammable liquids

The above is only a small sample of what the fire inspector is looking for to ensure that all applicable state and local fire codes are adhered to. The administrative staff has also been working hard on the proposed fire code, which is anticipated to be adopted late 2008/early 2009. With the adoption of this code, current standards used industry wide will be enforced as our current code dates back to the 1970's.

### **Plan Review**

New developments and building construction are outlined below. The Hales Corners Fire Department worked with the developers to ensure that the best fire protection and detection systems were applied to these new public use buildings.

- ✓ Snap Fitness, 5700 S. 108<sup>th</sup> Street
- ✓ Originails, 6122 S. 108<sup>th</sup> Street

# Fire Prevention and Public Education

## History

The history of National Fire Prevention Week has its roots in the Great Chicago Fire, which occurred on October 8, 1871. This tragic conflagration killed some 300 people, left 100,000 homeless and destroyed more than 17,000 structures. The origin of the fire has generated speculation since its occurrence, with the fact and fiction becoming blurred over the years. One popular legend has it that Mrs. O'Leary was milking her cow when the animal kicked over a lamp, setting the O'Leary barn on fire and starting the spectacular blaze. However the massive fire began, it swiftly took its toll, burning more than 2000 acres in 27 hours. The city of Chicago quickly rebuilt, however, and within a couple of years residents began celebrating their successful restoration to memorialize the anniversary of the fire with festivities.

Long overshadowed, the City of Peshtigo in northern Wisconsin suffered a greater tragedy that very same day suffering a loss of 2400 square mile (1.5 million acres) along with an estimated 2400 people who died compared with only 250 deaths in Chicago.

Intending to observe the fire's anniversary with a more serious commemoration, the Fire Marshals Association of North America (FMANA), the oldest membership section of the National Fire Protection Association (NFPA), decided that the 40th anniversary of the Great Chicago Fire should be observed not with festivities, but in a way that would keep the public informed about the importance of fire prevention.

When President Calvin Coolidge proclaimed the first National Fire Prevention Week, October 4 - 10 1925, he noted that in the previous year some 15,000 lives were lost to fire in the United States. Calling the loss "startling", President Coolidge's proclamation stated, "This waste results from the conditions which justify a sense of shame and horror; for the greater part of it could and ought to be prevented". It is highly desirable that every effort be made to reform the conditions which have made possible so vast a destruction of the national wealth".

NFPA continues today to make National Fire Prevention Week a priority and counts on the participation and efforts of tens of thousands of fire and safety professionals, emergency volunteers, and other individuals working to reduce the risk of fire and the toll it takes on our society.

## Today

Equally important is the role of public education. Each year the Hales Corners Fire Department takes the message of fire prevention and home safety out to the community with various programs designed to educate all age groups.

Traditionally public education is viewed as the fire department visiting schools in October to teach the kids STOP-DROP-ROLL. While this is true, the Hales Corners Fire Department has defined public education programs to focus on various age groups.

October is our busiest time of year. In 2007, members of the fire department brought the message to over 1,600 children and teachers from pre-school through fifth grade. Our fire prevention is a tiered approach which builds on the previous year's material presented at each grade level. This ensures that the children get to see something new every year while reinforcing what they've learned in the previous years. Our programs touch on:

- ✓ Seeing a firefighter dressed in his protective gear
- ✓ Seeing a fire truck and handling a fire hose
- ✓ STOP-DROP-ROLL
- ✓ Crawling low in simulated smoke
- ✓ Having an escape plan
- ✓ Having a meeting place
- ✓ Checking smoke detectors
- ✓ Checking the home for fire hazards
- ✓ Survive Alive house for hands on practice

Schools are not our only focus for fire prevention and education. The Hales Corners Fire Department partners with Forest Ridge Apartments, and Briar House to deliver our fire prevention program, fall prevention program, and emergency medical program.

The fire prevention and education program also coordinates the presentation of our material at several outdoor events such as: Culvers Safety Day, Sentry Safety Day, and Fourth of July events, National Night Out, and Delivering Fire Prevention with Rosati's Pizza in addition to fire station tours and birthday parties. The Public Education events outside of the fire prevention program at the schools reach over 1,300 kids and adults through out the year. We strive to expand our interactive public programs in an effort to educate children and adults and to answer any questions they may have.

As the Mission Statement for the Hales Corners Fire Department reads, 'it is through our members that we provide effective fire prevention and life safety and emergency services' to all those who enjoy our community and to stress to all age groups that fire safety is everyone's responsibility.

## Training and Education

The training bureau is responsible for maintaining the basic firefighting and emergency medical skills of the department staff. Members are able to attend training either on Monday evenings or Tuesday mornings thus allowing staff members flexibility in attending training convenient to today's busy schedules. Below are some of the training highlights for 2007 which are above and beyond regular training objectives listed on the following chart.

**January:** Restaurant Target Hazard program handled by Captain Joe Knitter of the South Milwaukee Fire Department. This program has been presented at national firefighting conferences. Hazardous atmosphere monitoring, review of tools MSA Orion and PID meter, and newly acquired charging / calibrating unit.

**February:** EMT safety training in blood borne pathogens completed for department personnel.

**March:** Vacant acquired dwelling in Greenfield, 8420 W. Forest Home Avenue, and firefighter basic drills were completed along with firefighter safety and survival drills.

**April:** NIMS / ICS 200 and 800 courses completed by all department staff members.

**May:** New AED unit introduction and operations completed. Introduction of new portable suction units for the 1<sup>st</sup> Responder operations completed. Joint EMS training completed with Tess Corners FD.

**June:** Vacant acquired dwelling in Greenfield, 3670 S. 108<sup>th</sup> Street. Four weeks were spent on firefighter basics and concluded with three days of room burns run in conjunction with the City of Greenfield FD.

**July:** Engine company water supply, and hose deployment operations training completed.

**August:** Extensive training on the new 800 MHz radio system, mobile radios, portable radios, dispatching, and operations

**September:** Annual HEPA and MSA SCBA facepiece fit testing completed. CPR refresher training completed.

**October:** HIPAA annual training completed. DOT North American Emergency Guidebook / Haz – Mat awareness training completed. MSA Thermal Imaging Camera internet training introduced. NIMS ICS 300 training completed by HCFD staff officers. Milwaukee County EMS introduced a new medical study working with an Impedance Threshold Device (ITD) that is placed into the CPR process when dealing with a PNB victim.

**November:** NIMS ICS 400 training completed by HCFD staff officers. EMT Refresher program presented by MATC for recertification of staff EMT licenses. .

**December:** EMT refresher program completed, meeting the State of Wisconsin criteria for EMT license recertification.

| <b>Training Topic</b>                                                                   | <b>2006</b>    | <b>2007</b>    |
